

Project Position

IIT Gandhinagar (IITGN) invites applications for the post of Research Associate, in an ongoing international project on river health. This project is funded jointly by India-UK.

Project:

AMRflows: antimicrobials and resistance from manufacturing flows to people - joined up experiments, mathematical modelling and risk analysis

Job title: Research Associate (1 post)

Essential Qualification: PhD in Civil Engineering (with specialization in hydrodynamics) or related fields

Preferred Skills: Computational and experimental hydrodynamics, flood routing, hydrological modelling, GIS and remote sensing, river engineering, field work, data acquisition, project coordination, Technical report writing.

Duration: Initial appointment is for one year, extendable up to 3 years based on performance.

Remuneration: Rs 47,000/month + 8% HRA for first 2 years; Rs 49,000/month + 8% HRA for 3rd year.

Application Procedure: Candidates must send their applications via the google form on or before 8th January, 2020. Please contact Prof. Pranab K. Mohapatra (pranabm@iitgn.ac.in) for any queries.
